This "claims" memo of night after King was killed seeks to create a record indicating that Bobby Kennedy, not the FBI, was responsible for the claims on King. This is accomplished by the pretense that nothing happened prior to 7/6/63. Prior to this the FBI had asked RFK's okay & had not attained it. But the FBI kept the presence on RFK until it had to speak to Evans. The FBI pretends that the end is the beginning by eliminating all the earlier history, all its earlier efforts. The FBI admits 2 tap requests of RFK & admits he did not authorize bugging (MSUR)
